### REMARKS

Claims 53, 55, 56, 61, and 66 are currently pending in the Application, each claim being an independent claim. Applicants appreciate the Examiner's prior indication of allowable subject matter in the application.

Reconsideration of the Application is respectfully requested. In the Advisory Action mailed May 2, 2003, the Examiner maintained double patenting rejections over three U.S. Patents: Patent No. 6,310,605; Pat. No. 6,020,876; and Patent No. 6,067,077. Claims 42-52, 54, 57, 59, 60, 62-65, and 67-68 stand rejected under 35 U.S.C. § 103(a).

#### Double Patenting Rejection:

The Examiner indicated in the Advisory Action mailed May 2, 2003, that Applicants failed to terminally disclaim to all patents used as grounds for obviousness-type double patenting rejections in the Terminal Disclaimer filed on April 22, 2003. Accordingly, Applicants submit herewith a Replacement Terminal Disclaimer and respectfully request that the Terminal Disclaimer be substituted for the previously filed Terminal Disclaimer.

#### Rejections Under 35 U.S.C. § 103(a):

Applicants have cancelled the rejected claims without prejudice or disclaimer, and reserve the right to pursue the cancelled claims in a continuation application. Applicants have amended claims 53, 55, 56, 61, and 66 to include the subject matter of independent claims 45, 57, or 65, in accordance with the Examiner's suggestion in the Office Action mailed on January 22, 2003.

Therefore, Applicants believe that pending claims 53, 55, 56, 61, and 66 are now in condition for allowance.

### CONCLUSION

All of the stated grounds of objection and rejection have been properly traversed, accommodated, or rendered moot. Applicants therefore respectfully request that the Examiner reconsider all presently outstanding objections and rejections and that they be withdrawn. Applicants believe that a full and complete response has been made to the outstanding Office Action and, as such, the present Application is in condition for allowance. If the Examiner
